

# CINEMA 510

5.1 Home Theater Speaker System with Powered Subwoofer

## Bring the movies to life

The JBL Cinema 510 connects to any audio/video receiver for a perfectly configured 5.1 surround sound system, complete with a powerful 6.5" powered subwoofer and 5 voice-matched satellites for an immersive home theater experience. The subwoofer includes volume and phase control, providing total performance management of the system and customized tuning for your room. Designed to integrate with any flat screen TV, the compact JBL Cinema 510 fits snugly into any home environment to bring you signature JBL performance. Designed and engineered to work as an integrated system, the JBL Cinema 510 maintains a small footprint, making it convenient for flexible placement in any size space.

## Features

- ▶ Easy-to-install system
- ▶ Voice matched satellites for detailed listening
- ▶ Powered subwoofer for full-range bass
- ▶ Wall brackets (built-in) and loudspeaker cable included

# CINEMA 510
